AACHEN

Kati Herz

My utmost concern is your comfort and ease in our practice.

As the most senior Physicians' Assistant, I will likely be the first person you meet from our practice, either by phone or at our front desk.

I have more than 15 years experience as a physician's assistant in dermatological practices, and am currently broadening my training to include Preventive Medicine. Please feel free to ask me any questions you might have regarding preventive medicine.

One of my top priorities is to ensure that our practice is organized to provide you with a patient-oriented focus. In addition, I am responsible for scheduling your appointments and processing prescription requests in addition to other record-keeping and organization of electronic patient records.

Finally, I have a number of responsibilities in managing our practice, including directing our team of Physicians' Assistants.

Additional Qualification

- 2009 Trained as a Preventive Medicine Assisstant, German Clinic in Bad Münders
